6.5.3 List Views

1. List boxes also appear differently in Liquid UI from the way they display in SAPGUI. A SAPGUI list from the VA01 transaction is displayed below:

The screenshot shows a SAPGUI window titled 'Sales Document Type' with a close button in the top right corner. The window contains a list box with two columns: 'SaTy' and 'Description'. The list box has a vertical scrollbar on the right side. At the bottom of the window, there is a toolbar with five icons: a green checkmark, a blue funnel, a blue square with a plus sign, a blue square with a minus sign, and a red X.
